The War of Austrian Succession 1740-1748 M.S. Anderson, 2014-06-11 Set in motion by the disputed succession of Maria Theresa and her husband to the lands and dignities of Emperor Charles VI, this series of major conflicts (1740-48) involved far more than just the fate of the Habsurgs: soon, Austria, Prussia, France, Britain, Spain, Bavaria, Saxony and the Netherlands were embroiled in their different but interlocking power struggles, with profound long-term significance for Europe and beyond. The war marks the rise of Prussia to great-power status, and the opening of the struggle between France and Britain for maritime supremacy and colonial empire in North America, the Caribbean and India. This book examines the war and its consequences in their widest context.

<u>Canonising Shakespeare</u> Emma Depledge,Peter Kirwan,2017-09-28 This book demonstrates how the book trade of 1640-1740 canonised Shakespeare by selling, editing and promoting his plays and poems.

The Origins of the English Novel, 1600-1740 Michael McKeon, 2002-05-22 The novel emerged, McKeon contends, as a cultural instrument designed to engage the epistemological and social crises of the age.

Marriage Settlements, 1601-1740 Lloyd Bonfield, 2008-11-27 The history of the family has become an area of great interest, yet the property arrangements entered into upon marriage, a crucial aspect of the process of familial wealth transmission and distribution in the landed classes in early modern England, have never been systematically studied. In the light of evidence provided by hitherto unused family muniments, Dr Bonfield analyses the legal, social and economic aspects of these settlements, and discusses the development and impact of the strict settlement.

The Pursuit of the Heiress A. P. W. Malcomson,2006 The Pursuit of the Heiress is a new, greatly enlarged and more widely focused version of what the late Lawrence Stone described as a brilliant long essay or short book on the subject of the role of heiresses among the Irish aristocracy, which was published by the Ulster Historical Foundation under the same title in 1982 and has long been out of print. The new book comes to the same broad conclusions about heiresses--namely that their importance as a means of enlarging the estates or retrieving the fortunes of their husbands has been much exaggerated. This was because known heiresses were well protected by a variety of legal devices and, in common with many aristocratic women of the day, also had minds and strong preferences of their own--which meant that they were not generally an object of

deliberate or profitable pursuit. The new book also ranges more widely than its central theme of heiresses and addresses other aspects of aristocratic marriage such as abductions, elopements, mesalliances, the supposed rise of the affective family, and the disadvantaged situation of even the richest and most privileged women in an age when both adultery and divorce were largely the prerogative of men.

The Revolution in Eighteenth-century Art Robert R. Wark,2001 Written by the collection's former curator, this text discusses ten pictures from the Huntington collection which demonstrate the wide variety of styles and forms produced in Britain during the period between 1740 and 1840. Some of the works examined include Thomas Gainsborough's The Blue Boy and Richard Wilson's River Scene with Bathers. The volume is lavishly illustrated throughout with color photographs of the ten pictures and other works by the artists and their contemporaries. Dutch-Asiatic Trade 1620 - 1740 Kristof Glamann,2012-12-06 The present monograph has grown out of a good many years of study of the history of the European trade to the East Indies. The starting-point actually was Danish. Having treated the history of the Danish Asiatic Company during the period 1732-1772 I went abroad in order to familiarize myself with the background to the reorganization of Danish trade about 1732. It was especially the possible connexion with the dissolved Ostend Company and the counter-measures, diplomatic as well as economic, of the Dutch, English, and French companies that interested me. Through these investigations I got acquainted with the various Northwest European company records and soon realized that the Dutch archives offered a rich material, especially as regards quantities and prices. A study on the Dutch Company's trade in Japanese copper, a subject which had previously occupied Scandinavian historians in con nexion with the question of the status of Swedish copper on the European market in the 17th century, amplified my knowledge of the archives in the Hague to such a degree that I dared to tackle the greater object of giving a description of the Company's trade as a whole during its heyday. On various points it proved to be necessary to make comparative in vestigations, especially in the English East India Company's archives in London.

The Cambridge Companion to English Literature, 1650-1740 Steven N. Zwicker,1998-06-18 This volume offers an account of English literary culture in one of its most volatile and politically engaged moments. From the work of Milton and Marvell in the 1650s and 1660s through the brilliant careers of Dryden, Rochester, and Behn, Locke and Astell, Swift and Defoe, Pope and Montagu, the pressures and extremes of social, political, and sexual experience are everywhere reflected in literary texts: in the daring lyrics and intricate political allegories of this age, in the vitriol and bristling topicality of its satires as well as in the imaginative flight of its mock epics, fictions, and heroic verse. The volume's chronologies and select

bibliographies will guide the reader through texts and events, while the fourteen essays commissioned for this Companion will allow us to read the period anew.

Women, Authorship and Literary Culture 1690 - 1740 S. Prescott,2003-09-08 Sarah Prescott discusses the careers of a number of key women writers of the period from 1690 to 1740, exploring the role played by geographical location, literary circles, patronage, the literary marketplace, and subscription publication in shaping patterns of female authorship. The volume also provides a wealth of detail about the circumstances which affected the careers of individual women as well as investigating the marketing, reception, and self-representation of women writers in general.

Anglomania in France 1740-1789: fact, fiction and political discourse Josephine Grieder, 1985

Ritual Violence and the Maternal in the British Novel, 1740-1820 Raymond F. Hilliard, 2010 This challenging book brings to light a mythic dimension of seventeen important eighteenth and early nineteenth-century narratives that revolve around the persecution of one or more important female characters, and offers original reading of novels by Richardson, Fielding, Burney, Radcliffe, Godwin, Austen, Scott, and others. The myth in question, which Raymond Hilliard calls the myth of persecution and reparation, serves as a major vehicle for the early novel's preoccupation with the mother, a mythic figure distinct from the historical mother or from the mother as she is represented in eighteenth- and early nineteenth-century maternal ideology. Hilliard argues that the myth of persecution and reparation derives from the ropos of female sacrifice in the romance tradition, and shows that this topos is central to several kinds of novels-realist, Gothic, Jacobin, feminist, and historical. Hilliard contends that the narrative of persecution and reparation anticipates the twentieth-century maternal myth associated with the work of Melanie Klein and other relational model psychoanalytic theorists, and he thus also examines the psychosexual significance of the mother. Hilliard explores the relation of psychosexual themes to social representations, and delineates a new theory of plot-both tragic and comic plots- in the early novel. --Book Jacket.

Neighbourhood and Community in Paris, 1740-1790 David Garrioch, 2002-08-08 A picture of pre-Revolutionary Paris as a structured local community based on neighbourhood ties.

The Cambridge Companion to English Literature, 1740-1830 Thomas Keymer, Jon Mee, 2004-06-17 This volume offers an introduction to British literature that challenges the traditional divide between eighteenth-century and Romantic studies. Contributors explore the development of literary genres and modes through a period of rapid change. They show how literature was shaped by historical factors including the development of the book trade, the rise of literary criticism and the expansion of commercial society and empire. The wide scope of the collection, juxtaposing canonical authors with those now gaining new attention from scholars, makes it essential reading for students of eighteenth-century literature and Romanticism.

Dutch Primacy in World Trade, 1585-1740 Jonathan I. Israel, 1989-06-08 Despite its small size and population, the Dutch Republic functioned as the hub of world trade, shipping, and finance for nearly two centuries. This is the first detailed account of that hegemony from its sixteenth-century origins to the final collapse of the Dutch trading system in the eighteenth century. The economic structure of the early modern world was such that the Dutch Republic, particularly Amsterdam, was able to dominate the world economy to a far greater degree than any commercial power before or since. Using archival and secondary sources, this book explains how such a small nation was able to achieve and sustain this ascendancy for so long. In particular, Professor Israel emphasizes the interaction between Dutch commercial activity in Asia, Africa, the Americas, and the Middle East, and its penetration of nearby European markets. -; Introduction; The origins of Dutch world-trade hegemony; The breakthrough to world primacy, 1590-1609; The Twelve Years' Truce, 1609-1621; The Dutch and the crisis of the world economy, 1621-1647; The zenith, 1647-1672; Beyond the zenith, 1672-1700; The Dutch world entrep--ocirc--; and the conflict of the Spanish succession, 1700-1713; Decline relative and absolute, 1713-1740; Afterglow and final collapse; Conclusion -

The English Fable Jayne Elizabeth Lewis,1996-03-28 Between 1651 and 1740 hundreds of fables, fable collections, and biographies of the ancient Greek slave Aesop were published in England. In The English Fable, Jayne Elizabeth Lewis describes the national obsession with Aesop's fables during this period as both a figural response to sociopolitical crises, and an antidote to emerging anxieties about authorship. Lewis traces the role that fable collections, Augustan fable theory, and debates about the figure of Aesop played in the formation of a modern, literate, and self-consciously English culture, and shows how three Augustan writers - John Dryden, Anne Finch, and John Gay - experimented with the seemingly marginal symbolic form of fable to gain access to new centres of English culture. Often interpreted as a discourse of the dispossessed, the fable in fact offered Augustan writers access to a unique form of cultural authority.

From Flintlock to Rifle Steven T. Ross,1996 Old Regime armies, recruited from a narrow social base and armed with slow-firing, short-range, inaccurate weapons, relied upon harsh discipline and formalized evolutions to attain tactical proficiency. When the French Royal Army collapsed it was replaced with a mass citizen army. This contained elements of the old tactical system but placed a new emphasis on mobility, flexibility, and individual initiative. Napoleon's rivals either imitated aspects of the French system or sought to copy the spirit of the new tactics, engineering social reforms from above and creating their own citizen armies.
